

1600 LTR FEED MILL BIN

Product Code

JVMS1600/2

The JACKY Bin model JVMS1600/2 is purpose built to sit on top of feed milling equipment. The compact design utilizes a steep sided hopper bin with large discharge opening, to aid in free discharge of powdered products such as vitamin mixes and meat meal. The narrow steel forklifting frame is especially designed to allow these units to be positioned side by side on top of common modular feed mill equipment, so that operators have a safe, tough and easy way to store and discharge product into their milling systems.

BENEFITS

Model JVMS1600/2 Benefits:

- 1200kg Safe Working Load
- 1600lt hopper volume
