

CENTRE DISCHARGE BAG SPLITTER - LOW PROFILE

Product Code

JBBSA/4

JACKY® Centre Discharge Bulk Bag Splitter provides an easy and smart method for discharging product directly from a bulk bag.

BENEFITS

1500 LTR Squat Centre Discharge Bag Splitter!

The JBBSA/4 Squat Centre Discharge JACKY® Bag Splitter design incorporates a poly hopper mounted in a forkliftable steel stillage. The bin is emptied through an opening in the centre of the base, and has the option of a slide hatch discharge mechanism for dry goods. This Bin is ideal for food storage, as well as for settling tanks and other chemical storage applications.

Model JBBSA/4 Benefits:

- 1700L/1.7m³capacity.
- Automatically cuts bulk bags when lowered onto Bag Splitter, allowing easy and hassle-free discharge of Bulk Bags.
- Bag may be left on Bag Splitter until empty to prevent transfer of contents to other storage systems.
- Centre Discharge hatch allows precise control of product discharge out of Bag Splitter.
- Helps overcome lifting height problems - Bag Splitter is picked up from underneath.
- High capacity but low height.
- All working parts UV stabilised polyethylene or stainless steel for longevity.
- 30 degree run slope allows the discharge rate of most granular products to be easily controlled.
