

LOU SLICK FEEDER

Product Code

SLFML80

Portable single-sided hopper, specifically designed to facilitate the storage and dispensing of loose mineral lick products and granular feed.

BENEFITS

The 'Lou' Slick Feeder provides a superior way to store and dispense loose mineral lick rations. Moulded from 100% corrosion resistant polymer, this feeder has a large, fully removable lid and a large top opening to facilitate loading.

Benefits

- Approx. 80L capacity
- Approx. 100kg mineral lick capacity
- No seams to split or leak
- Translucent walls to allow easy assessment of remaining product level
- Fully removable lid
- Also ideal for grain and pellet feeding
- Approx. 40kg pellet or grain capacity
- Steep run slopes for complete evacuation of contents
- Supplied standard with brackets to hang from fence or gate
- 100% Australian made
